WHY MEGANITE

Life is about choices, and whether you are a designer, fabricator or end customer when it comes to choosing the right solid surface Meganite ticks all the right boxes, whatever the application.

Meganite offers the ultimate in thermoforming White, 'Flexy White' offers the smallest bending radius in the industry allowing even more design freedom.

Another advantage with Meganite in the ever popular solid white décor is the wider dimension availability, Snow White and Flexy White are stocked as standard in double width sheets 1500mm wide. The result can mean saving seaming time and wastage on that all important project. Most of our competitors cannot produce such sizes. That's a pity!

MEGANITE X SERIES

DARKER COLOURS, REDUCED SCRATCH VISIBILITY

Meganite’s new X Series re-introduces a collection of much-loved dark colours with advancements that make them more application friendly than ever before.

The X Series significantly reduces the appearance of scratches using a new formulation blend to give dark colours a richer appearance and reduces the sanding time to achieve your desired finish.

CUSTOM COLOURS

Meganite produces many of the solid surface components in-house, such as pigments and particulates. This means Meganite can produce custom decors in their development lab quickly and produce custom colour sheets in relatively low quantities. Perfect for specific project / client needs, whether it’s a RAL colour or stone match, Meganite can produce the match.

MEGANITE TRANSLUCENTS

If you want to make a statement look no further than Meganite’s translucent series, solid pastel decors from the glow range become vivid electric bold decors when backlit. If you want the same effect with a granite design, our Ice collection will give you the perfect result. The white translucent can easily become a different colour with the use of LED behind.

MEGANITE ACRYMED

Solid surface is a great hygienic material for all healthcare applications, horizontal and vertical surfaces benefit from its seamless and non-porous nature. This makes it ideal for hospitals, outpatient clinics and dental surgeries.

MEGANITE ACRYMED

AcryMed is certified quality in accordance with ISO 22196 standard (Japanese test method JIS Z 2801) to verify its significant impact that works 99.9% effective against bacteria. Advanced antimicrobial technology in the product range is specially developed to enhance the current solid surface benefits and improve indoor environment surfaces by protecting the surface against deterioration, stains and odor causing bacteria. Designing with AcryMed will stay cleaner and fresher between regular cleanings in the high hygienic demand space.

EASY ACCESS TO RECYCLED MATERIALS

Everyone should have access to recycle product. The goal for the Meganite Recycled series is simply to popularize the use of recycled materials in everyday life. We took seven of the industry’s most popular designs and made them with recycled content. Of course this series is backed with SCS Certifications. Just look for the recycle emblem on our colour range to see the decors available.

MEGANITE MOVEMENT SERIES

The new colours we have created to continue the Movement Series represent a lifestyle centered around design and practicality working harmoniously to create luxurious, ultra-smart spaces. These carefully chosen colours are proven to psychologically improve your mood, and provide a sense of relaxation and serenity.

MARBLE COLLECTION

Design inspired by luxurious natural stone, this industry breakthrough marble collection is elevated above other colours because of the diverse aesthetic appeal, highlighted by distinct veining running through each slab, that offers a sophisticated look and artistry that makes them a classic choice for centuries.

M009 MT. CREMO CARRARA

Soft free-flowing yet consistent veins on a saturated white background that is embodied with subtle deep brown veins breathing across the surface.

MT. CARRARA M007

The essence of European modern classic, Mt. Carrara encapsulates high fashion furniture and interior design. Always timeless, Mt. Carrara is the Milan touch to any cosmopolitan room.

Pure carrara look with all the advantages of solid surface and with our unique production process each sheet can easily be pattern matched, resulting in perfect design and easy fabrication with little wastage. No wonder it was given global design award in 2019.

M007 Mt. Carrara and M009 Mt. Crema Carrara comes in 1200mm wide sheets.

Our unique production process means maintaining pattern flow from sheet to sheet can easily be achieved when seamed together.

M002 Mt. Vancouver table top

CONCRETE COLLECTION

Embodying the rough and strong look of concrete, the new colours maintain a subtle beauty which celebrates the fundamentals of good design: powerful aesthetics and bountiful possibilities for all spaces. Presented through different shades of grey ranging from gentle and warm grey to dramatic and dusky near-black tones. Monochromatic veins and fine particles breathe across the surface, creating a lavish and energetic look with a refined touch.

TERRAZZO COLLECTION

Meganite celebrates the renaissance of the popular 15th century Venetian trend with a all-new collection of Terrazzo inspired solid surface patterns.

TRUE TERRAZZO - captures the classic true look of natural terrazzo into modern design that reveals an extraordinary aesthetic potential and unprecedented versatility in daily use.

Compared with original terrazzo tiles, the key advantage lies with all the fundamental functionality of Meganite standard solid surface. Non-porous properties enable it to be installed in any environment from healthcare to food service to residential spaces without fear of harboring mold or bacteria with the hygienic surface also being easy to clean and maintain.

The colours are available in 12 mm thickness (usual terrazzo is 20 mm) which provides the flexibility for thermoforming needs in any space.

WHAT ARE THE BEST APPLICATION FOR MEGANITE?

Meganite is ideal surface solution for corporate offices, banks, theatres, museums, airports and many other commercial public areas.

Consider these benefits:

- ▶ Endless design possibilities
- ▶ Durable / seamless surface
- ▶ Gold certified for indoor air quality
- ▶ Euroclass fire certification
- ▶ Large range of standard decors
- ▶ Distribution / fabrication network throughout Europe

WHO USES MEGANITE?

Some of our valued partners who have specified Meganite for commercial projects across the world:

- ▶ FINSA Headquarters Office, Spain's Largest Wood Fiber Production Company
- ▶ Alibaba Group
- ▶ Walt Disney Park and Resorts
- ▶ Doha International Airport
- ▶ KPMG Corporate Office
- ▶ Chicago Children's Museum

Some of our valued partners who have specified Meganite for retail and hospitality projects across the world:

- ▶ BMW
- ▶ Dyson
- ▶ Pandora
- ▶ Swatch
- ▶ Radisson Blu Hotel

MEGANITE A SOLID PARTNER

Designers are exploring material options that surprise and engage consumers in order to create environments that elevate the retail experience.

Meganite meets the challenges of today's retail environments by offering a product that can be molded into limitless shapes and forms, that can be curved or backlit. Renewable and affordable product that can solve unique design challenges and stand the test of time.

MEGANITE FOR YOUR FOOD SERVICE ESTABLISHMENT

Food preparation and sanitation are important factors considered by food service owners, vendors and today's discerning consumers.

What are we eating? Where is it coming from? How was it prepared? These important questions are being asked by consumers who want to be confident that their food is being prepared and served to the highest standards and sanitary conditions.

Meganite is NSF certified for use in public food preparation areas. Seamless, non-porous and durable, our product will be on everyone's menu.

Some of our valued partners who have specified Meganite for retail and hospitality projects across the world:

- Starbucks
- KFC
- Häagen-Dazs
- Chili's
- Burger King
- Rita's Italian Ice
- Pizza Hut

MEGANITE FOR YOUR HEALTHCARE FACILITY

Healthcare environment require high functioning materials that are resilient and meet strict regulation and high industry standards. While functionality and performance are top priorities, healthcare organizations do not want to sacrifice good design and aesthetics.

Meganite also offers new healthcare protection surface – Meganite AcryMed which protects the suface against deterioration, stain and odor causing bacteria.

Some of our valued partners who have specified Meganite for healthcare projects across the world:

- East Orange General Hospital, USA
- Elmhurst Memorial Hospital, USA
- Glendale Memorial Hospital, USA
- Mount St. Joseph, USA
- Penna Orthodontics Medical Centre, USA
- University of Pennsylvania Hospital, USA
